Temperature-Humidity Environmental Test Profile

NOTES:
1. * Conduct voltage-drop & rate test
2. Environmental conditions shall not be altered after the test item is turned on
3. Tolerances—Rate of temperature transition
   Min: 1°F (0.6°C)/min
   Max: 8°F (4°C)/min
   Humidity = ± 5% RH
   Soot temp. = ± 5°F (± 3°C)
4. ▲ Test of automatic Turn-OFF
